

\*Denotes deer resistant plants that are also drought tolerant once established.

## Shrubs

Latin Name	Common Name
Amorpha*	Leadplant
Berberis*	Barberry
Buddleia	Butterfly Bush
Buxus	Boxwood
Caryopteris*	Blue Mist Spirea
Cercocarpus*	Curl-leaf Mountain Mahogany
Chaenomeles*	Flowering Quince
Chamaebatiaria*	Fernbush
Chrysothamnus*	Rabbitbrush
Cornus	Dogwood
Cotinus*	Smokebush
Cotoneaster	Cotoneaster
Daphne	Daphne
Euonymus	Burning Bush
Fallugia*	Apache Plume
Junipers*	Juniper
Kolkwitzia*	Beauty Bush
Mahonia*	Oregon Grape Holly
Potentilla*	Potentilla
Rhododendron	Hardy Azalea
Rhus trilobata*	Skunkbush sumac
Spirea	Spirea
Symphoricarpus*	Snowberry
Syringa*	Lilac
Viburnum	Viburnum
Weigela	Weigela

## Trees

Latin Name	Common Name
Betula	Birch
Celtis*	Hackberry
Crataegus*	Hawthorn
Gleditsia*	Honey Locust
Juniperus communis*	Common Juniper
<i>(Note: Deer will browse Rocky Mountain Juniper Juniperus scopulorum)</i>	
Picea pungens	Blue Spruce
Pinus edulis*	Pinon Pine
Quercus	Oak
Robinia*	Black Locust
Salix	Corkscrew Willow

## We're here to help!

*In addition to plant selection, you can use repellants to deter deer. (Ask us for current selections). A home remedy of water, egg yolk, and hot pepper may also help. If all else fails, consider putting up a fence. According to the Department of Wildlife, it must be at least 6' high.*

## Plants That Deer Tend To Avoid

## Phelan Gardens

4955 Austin Bluffs Parkway  
Co. Springs, Co. 80918  
719-574-8058

[www.phelangardens.com](http://www.phelangardens.com)

If deer are hungry enough, they will eat just about anything. However, you can try to curtail their efforts by choosing plants that rank lower on their list of preferred food. **\*Denotes deer resistant plants that are also drought tolerant once established.**

## Annuals

Ageratum	Lantana*	Sweet Alyssum
Calendula*	Lobelia	Sunflower*
Cleome*	Nasturtium	Verbena*
Dahlia	Nicotiana*	Vinca Vine*
Dianthus*	Marigolds*	Vinca Flowers*
Dusty Miller*	Salvia	Zinnias*
Heliotrope	Snapdragon*	

## Perennials

Realizing that no plant is 'deer proof', perennials in the **Rarely Damaged**, and **Seldom Severely Damaged** categories would be best for landscapes prone to deer damage. Plants **Occasionally Severely Damaged** are often preferred by deer and should only be planted with additional protection such as the use of fencing, repellents, etc.

### KEY:

A=Rarely Damaged

B=Seldom Severely Damaged

C=Occasionally Severely Damaged

D=Frequently Severely Damaged

### Latin Name Common Name Rating

Achillea*	Yarrow	B
